Subject: Draft RD Order

Gentlemen,

Attached please find a draft order with terms consistent with those EPA provided to the City on October 26th. As you know, at that time EPA indicated that we would allot 3 months to execute a consent order.

I apologize for not providing a draft slightly sooner. As you may notice, the terms of the draft order are complex, and various reviews were required. Among other things, EPA rarely converts all or part of a unilateral order to a consent order. Please note that the draft is still subject to further government comment.

Given the timing and complexity, I anticipate that we will devote much of our discussion this Friday towards a shared understanding of the draft.

EPA will next be providing a draft of Appendix B, the Work Schedule, which I hope to have prior to the meeting.

Please let me know if you have any questions.
